

Venus Lead

What is Venus Lead?

Venus Lead is a premium lead sheet with a unique factory-applied metallic finish. Unlike ordinary lead, it arrives pre-patinated, so there's no need for on-site treatment or waiting years for a natural patina. From day one, it offers a silvery appearance that resists streaking and weathering.

Where is it used?

- Roofing, flashings, valleys & dormers
- Facades & architectural cladding
- Heritage restoration & modern design projects
- Anywhere appearance & durability matter

Why choose Venus Lead?

- Instant beauty - ready-weathered, consistent look
- No maintenance - no patination oil, no streaks
- Durable - resists rain, UV and harsh weather
- Workable - cuts, bends & solders like standard lead
- Sustainable - 100% recycled and recyclable
